Internal Complaint Committee (ICC)

Equal chances are offered to all students at the coeducational Akshaya College of Arts and Science. People who work together, men and women, get along well. However, complaints about unwanted physical, verbal, or nonverbal sexual expressions, demands for sexual favours, or physical contacts or advances are taken seriously and dealt with appropriately. The purpose of this cell is to raise awareness among staff and students about the need of working hard to stop sexual harassment in the college. Sexual harassment complaints must be filed with the Committee, and members may take appropriate disciplinary action in compliance with college policies.
