7. DEPARTMENT OF PHYSICAL EDUCATION

SPORTS POLICY

The college is dedicated to giving students a range of opportunity to succeed in their chosen fields of interest. One area that needs sufficient attention to help pupils succeed in life is sports and education.

OBJECTIVES

- To foster an environment and provide avenues for students to showcase and develop their Skills across multiple sports.
- To allow the students to break out of their shells and direct their energies into appropriate Pursuits.
- The aim is to foster a competitive spirit among students by organizing events both inside and across colleges.
- To use various sports activities to teach students' discipline.
- To plan training camps in different sports according to the demands and specifications.
- To take all necessary actions to help students find jobs and pursue careers in sports excellence.

GENERAL GUIDELINES

- The college works hard to make sure that the athletic facilities and grounds are designed within the constraints of available space and resources.
- Every year, the college hosts sports and athletic competitions in which it divides the students several teams and creates possibilities for a significant number of students to participate.
- Every effort will be made to develop the students to represent the affiliated university, clubs, District / State associations, and in tournaments hosted by other leading institutions.
- Other sports organizations, groups, and the local community may use the college's playgrounds and facilities under conditions stipulated by the managements from time to time.
